\* Information might be offered to our business section, the tech sector and the special agent of the inquiry.

It is a great pleasure to inform you that SAGINOMIYA have exhibited at "CHINA REFRIGERATION 2014", a major global refrigeration / air conditioning / heating exhibition to be held at Beijing, China in April 2014.

We have introduced the lineup of Solenoid Valves, Pressure Controls and Expansion Valves for R410A refrigerant. And with FOSHAN HUALU AUTOMATIC CONTROLS LTD, SAGINOMIYA's Chinese subsidiary have exhibited automatic control devices for A/C and Refrigeration. Also, with Nippon GT Corporation from SAGINOMIYA group has exhibited their Bimetal Thermostats.

We deeply appreciate that we had a large number of visitors to our booth during the exhibition.
